[Why the Reformation Still Matters-by Greg Harris](#)
Heritage Room

It has been 500 years, but the Reformation brought momentous changes, and its issues continue to be argued: the authority of scripture, the nature of the church, the freedom of individual conscience, the place of grace and works, the relationship of church and state, and more.

Through the life and thought of Martin Luther, we will explore these issues in the context of their continuing relevance for the 21st century. The Reformation was a time of exile and execution and devastating wars. It is also a story of commitment and courage and putting all on the line.

LEAD

Visionary Family-by Nick Pacholski

Generations Room

No matter what your family looks like today—whether you are expecting your first baby, parenting a house full of kids, leading your family as a single parent, or preparing for grandkids—God invites you to become a visionary parent or grandparent. A parent's influence over the hearts of their children will never decrease. It is your life's greatest calling to impress a love for God upon the hearts of your children.

In this two-week series, you will explore why God chose you to be a parent and what the biblical purpose is for your family. Family life is hard, messy, and at times, exhausting. But even in the midst of all of the chaos, you will always be a powerful influence over the hearts of your children and grandchildren. Let's make sure we leverage this for the good, to pass our faith onto the next generation.
